# STAB TP 28

## Lead Based One Pack Stabilizer

### DESCRIPTION:
Lead based complex stabilizer for high filler application.

**STAB TP-28** This stabilizer is particularly suitable for the manufacture of wall panel, profile & sheet.

**STAB TP 28** is also used in the other rigid PVC processes. It is very effective heat stabilizer. It has a very well balanced internal & external lubrication; it is suitable for high filler applications and also suitable for all types of injection moulding machines and imparts good welding properties, smooth surface and dimensional stability to the products.

### PROPERTIES:

| | | |
|---|---|---|
| Form | : | Flakes |
| Colour | : | White |
| Lead Content | : | **% 46 ± 2** |
| Moisture | : | % 1.0 max. |
| Bulk Density | : | 600 + 10 |

### APPLICATION:
- Wall Panel
- Profile
- Sheet
- All Rigid Applications

### RECOMMENDED CHARGES:
2.0 – 3.0 phr depending on the processing condition and the type of the materials to be produced.

### PACKING:
25 Kgs net Paper or PP bags.
